SUMMARY

A Junior Software Developer with a passion for turning ideas into working applications. A quick learner with a solid foundation in programming principles, eager to take on new challenges. With a detail-oriented approach and a strong work ethic, I am confident I can make a valuable contribution to any team

EDUCATION

CodeYourFuture, West Midlands, UK — *Full Stack Developer Certification*

MAY 2022 - MARCH 2023

Built web applications in HTML, CSS, JavaScript, React, Node.js, Express.js, PostgreSQL, PG Admin, and various other libraries and frameworks within specified deadlines. Achieved greater understandings of the fundamentals of software engineering as well as working in a development team.

EXPERIENCE

Who Targets Me, Remote, UK — *Software Developer*

APRIL 2023 - PRESENT

- Developing a cutting-edge user experience based research platform for the University of Berlin as one of two main developers, using Sveltekit, Typescript, Tailwind, and Web APIs to create a robust and user-friendly platform for researchers and students
- Working closely with senior developer, tech lead, faculty members and stakeholders to identify and implement key features and functionalities
- Authoring detailed documentation on how to set up studies, providing clear instructions and best practices for researchers to follow

CodeYourFuture, Birmingham, UK — *Trainee Software Engineer*

MAY 2022 - MARCH 2023

- Developed dynamic web applications and pages using a range of software languages, libraries, and frameworks, including VSCode, Git, Github, Linux, HTML, CSS, JavaScript, React.js, Node.js, Express.js, and PostgreSQL
- Developed on a team of 3 total developers, using agile methodologies to create an aggregated communication data tracker using Slack API to be able to track weekly communication data across CodeYourFuture workspaces
- Participated in a Hack The Midlands Hackathon, to build an application to induce happiness for the wellness category of the competition, using a REST API of random cat gifs, HTML, CSS, and JavaScript
- Improved problem solving, collaboration and time-management skills, by building various

individual and group projects to specific deadlines and completing tasks such as weekly peer code reviews, leading to a better understanding of the fundamentals of software development, as well as experience working in a development team

Mind Yours Clothing, Remote — *Graphic Designer*

OCTOBER 2021 - PRESENT

- Retail music-themed, custom-made t-shirts, posters, and stickers, as well as digital graphics and templates, successfully scaling the business into a profitable enterprise
- Consult with clients in order to meet their graphic design and marketing needs within the required timeframe
- Create custom designs using Adobe Photoshop and Canva for small businesses and sole traders in order to improve their digital marketing presence

CodeYourFuture, West Midlands — *Trainee Support Volunteer*

FEBRUARY 2023 - PRESENT

- Monitor applicant's progress throughout the stages of their application, as well as fostering communication and providing support to maintain engagement levels throughout the process
- Work as part of a diverse team of dedicated volunteers assisting applicants to overcome any barriers they face throughout the application process, in order to maximise enrollment of the next Code Your Future, West Midlands cohort
- Maintain and update applicant Google Sheets spreadsheet, and review applicant's work against minimum submission standards
- Help applicants debug code and provide code reviews so that they can have a better understanding of programming fundamentals going into the main course syllabus

PROJECTS

- Video Storage App
 - Source Code - <https://github.com/michellejanay/video-storage-app>
 - Deployment - <https://michellejanay-cyf-video-app.onrender.com/>
- Quote Server
 - Source Code - <https://github.com/michellejanay/quote-app>
 - Deployment - <https://michellejanay-quote-server.netlify.app/>
- Magic 8 Ball
 - Source Code - <https://github.com/michellejanay/magic>
 - Deployment - <https://magic-michellejanay.netlify.app/>
- TV Show Guide Project
 - Source Code - <https://github.com/michellejanay/tv-show-dom-project>
 - Deployment - <https://magic-michellejanay.netlify.app/>

ACCOMPLISHMENTS

- Invited to be a panelist speaker for CodeYourFuture in a discussion to inspire women to switch to the tech industry, where I shared my experience and insights as a woman who has recently broken into the industry
- Contributed to increasing awareness about the importance of diversity and inclusion in tech by promoting opportunities for women to pursue careers in technology
- Received positive feedback from attendees, demonstrating my ability to communicate effectively and inspire others to pursue their passions in tech
